

Univ. of Queen's Coll., Kingston, Can.  
Nov. 4, 1859.

Dear Sir,

Many thanks for your  
kind and obliging letter. I shall  
be glad to receive the set of  
Lindheimer's Texanpts of B if you  
speak (315 sp.), if you will be so good  
as send them per Express  $\text{C}^o$ ,  
labelled outside "Specs of Nat. Hist. only,"  
to save trouble at the Customs.

Please at sometime say where your  
"Pl. Lindheimeriana" are published. I see  
no likely references in "Walpers" (so far  
as the numbers have reached me) except  
to Pl. Wright. in Smiths<sup>n</sup> Contb. iii.

I am Dear Sir yours truly  
Jas. Lawson
